

CODING FRAMEWORK - THEMES AND DEFINITIONS

Community Gardens study

belonging	Feeling part of the place / the group; being recognised.
reciprocity	Unpaid mutual help; "taking turns"; gifts of produce.
ownership	Claims over space, tools, decisions; stewardship.
conflict	Disputes over rules, access, or resources.
care	Tending plants, the site, and one another.
place-attachment	Emotional bond to the specific garden.

Each excerpt in the Evidence bank is tagged with one or more of these codes.
The "By theme" view turns these tags into a code-book.
